- With Arnica Montana 6X, and Ibuprofen 1X, MSM, and more!
- Relieves inflamed tendons, ligaments, muscles, and joints due to sprains, strains, bruises, arthritis pain, backache, muscle spasms, etc.

## Vinco's Arnica-Profen

Vinco's Arnica-Profen is a homeopathic pain relieving cream that is used topically, which allows for immediate absorption into various regional areas of pain. The Ibuprofen found in Arnica-Profen is the same proven ingredient found in Advil and Motrin, and contains the highest concentration of Ibuprofen available in a cream. Ibuprofen is classified as a non-steroidal anti-inflammatory (NSAID) which works by blocking the production of prostaglandins which are chemicals in the body that cause inflammation and pain. Arnica Montana has a long history of herbal use, especially as an external treatment for bruises and sprains, it increases local blood supply, accelerates healing, and is an anti-inflammatory.

### Get relief from:

- General Arthritis
- Osteoarthritis
- Backache
- Muscle Aches
- Bursitis
- Sprains
- Rheumatoid Arthritis
- Gout
- TMJ
- Heel Spurs
- Bruises
- Tennis Elbow
- Tendonitis
- Painful Joints

Arnica-Profen is indicated for pain relief, as well as also being effective for increasing mobility and range of motion at the area of stiffness. Unlike orally administered drugs, Arnica-Profen does not have to pass through the body first so you can use less with no stomach upset and no prescription.

Arnica-Profen is non-greasy, will not stain skin or clothes, dries in seconds, is absorbed immediately and starts working in minutes. Arnica-Profen is also great for use with Ultrasound and for Massage Therapy.

### Directions:

Apply 1/4 to 1/2 teaspoon, onto affected area, and rub thoroughly 3-5 times daily.  
May take 48 to 72 hours to become effective.
