

## PRODUCT FORMULARY

# Adrenal Forte

- Supports Healthy Adrenal Gland Function<sup>†</sup>
- Helps Reduce Stress, Fatigue, and Maintain Healthy Cortisol Levels<sup>†</sup>
- Freeze-Dried Glandular Complex with DHEA

<sup>†</sup> These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Our bodies experience the mental and physical effects of stress every day, whether it be from problems at work, interpersonal conflict, or even the daily news. While we try to take steps to mitigate the effects, we may need a boost to handle them effectively. Vinco's Adrenal Forte contains ingredients that have been shown to be beneficial in the support of adrenal considerations including stress management and fatigue.†

**Vitamin A (Retinyl Acetate)**

- A fat-soluble essential vitamin
- Preserves and protects healthy vision†
- Helps the immune system function and has antioxidant properties†

**Vitamin C (L-Ascorbic Acid)**

- A water-soluble essential nutrient
- A powerful antioxidant that has the potential to reduce the risk of chronic disease and boost immunity†
- Low levels have been linked to increased problems with memory and thinking†

**Vitamin B1 (Thiamin HCl)**

- A water-soluble vitamin meaning that the body does not store it, and is an essential nutrient for the body
- Necessary for making adenosine triphosphate (ATP) which transports energy within cells

**Vitamin B2 (Riboflavin)**

- A water-soluble vitamin that, like all B vitamins, helps you build red blood cells and supports cellular functions that give you energy†
- Helps to maintain the metabolic integrity of the body, which in turn prevents and treats conditions such as migraines, cataracts, de-mentia, seizures, and more†

**Vitamin B3 (Niacinamide)**

- A water-soluble vitamin that is necessary for many processes in the body
- Can boost brain function, fighting against illnesses tied to the brain†

**Vitamin B6 (Pyridoxine HCl)**

- An water-soluble vitamin that can be found naturally in many foods, and as a supplement
- Necessary for creating neurotransmitters that regulate emotions, such as serotonin and dopamine, and so it is heavily involved in mood regulation†
- May help to decrease homocysteine levels in the blood, which has links to various psychiatric issues†

**Vitamin B5 (Calcium Pantothenate)**

- A water-soluble vitamin involved in the conversion of food to energy like all B vitamins
- Sometimes called the "anti-stress" vitamin, it may promote positive mood and brain function†

**Zinc (Amino Acid Chelate)**

- An essential trace mineral found in plants and meat
- Necessary for, but not produced by the body
- Acts as an antioxidant and has been shown to strengthen the immune system†
- Decreases oxidative stress and inflammation†

**Adrenal Gland (Freeze-Dried Argentina Bovine)**

- Adrenal glands produce many important hormones, including cortisol, aldosterone and adrenaline
- The adrenal hormones help regulate several bodily functions including metabolism, blood pressure and your body's response to stress
- Freeze-Dried glands contain all the natural constituents of the gland needed for therapeutic results†

**Spleen Gland (Freeze-Dried Argentina Bovine)**

- The spleen works to break down and remove damaged red blood cells, as well as to provide white blood cells
- Has the potential to fight infections and diseases†
- Freeze-Dried glands contain all the natural constituents of the gland needed for therapeutic results†

**DHEA/Dehydroepiandrosterone**

- A steroid hormone produced by the adrenal glands
- Hormone levels decrease as you age, leading to issues such as depression and heart disease†
- Works to balance the hormones in the body†
