<sup>†</sup> These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

A powerful antioxidant, Vitamin C is often what we turn to when we need a little extra immune support. But the benefits of this essential nutrient go far beyond its immune boosting potential, helping with everything from absorption of iron to high blood pressure management.

Vinco's Buffered Vitamin C 1000 is specifically designed to supplement the Vitamin C you get in your diet. It is buffered from acidic to a pH of 6.5-6.8, which may be less likely to cause gastric irritation when taken in higher doses.

### Vitamin C (as Calcium Ascorbate)

- A water-soluble essential nutrient found in many fruits and vegetables, as well as fruit juices, and that can be tolerated in the buffered form
- A powerful antioxidant that has the potential to reduce the risk of chronic disease and boost immunity†
- Low levels have been linked to increased problems with memory and thinking†
- Has the potential to reduce heart disease risk and manage high blood pressure†
- Studies have shown it may help reduce uric acid in the blood, which in turn can lower the frequency of gout attacks†
- Can improve the absorption of iron, thereby preventing iron deficiency†

### Bioflavonoids (Citrus 10%)

- Compounds found in the pulp or rind of citrus fruits
- They work directly with Vitamin C to boost its benefits such as immune support and protect it from oxidation

### Rose Hips (Rosa Canina) Fruit

- Seed-filled bulbs found underneath rose petals
- Filled with nutrients including Vitamin C, they are known to be high in antioxidants
