

## PRODUCT FORMULARY

# CoQ-Complete® MAX

- Provides cellular energy that support heart and brain health and function†
- Antioxidant support†
- Completely soluble and 100% crystal free for superior absorption
- Highest dose per serving (400mg)

† These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Despite its complicated name, Coenzyme-Q10 or CoQ10, as its commonly marketed, has a relatively simple role in the body. This compound helps your cells generate energy. As we age, the body's ability to make CoQ10 becomes less and less. Certain health conditions lead to the need for more CoQ10, and not to mention that many prescription drugs deplete the level of Q10 available for the body to use. This is where supplementation is needed.

Vinco's CoQ-Complete® MAX is a completely soluble, 100% crystal free solution of CoQ10 that has been clinically proven to provide superior bioavailability of this key nutrient.

### Co-enzyme Q10 (CoQ10) (Ubiquinone)

- An nutrient that is produced naturally in the body
- Plays a critical role in making adenosine triphosphate (ATP), a chemical that powers many processes in your body, such as muscle contraction†
- Acts as an antioxidant in your body, protecting your cells from damage that can be caused by compounds called free radicals†
- May be able to boost heart health by lowering abnormally high blood pressure in hypertensive patients, reducing their risk of heart disease†
- Researchers believe CoQ10 is able to improve the condition of patients with heart failure because it helps restore proper energy production and heart function while also protecting against oxidative damage†
- Beneficial in patients with statin-induced myopathy†

### Vitamin E (d-alpha tocopherol) & Mixed Tocopherols

- A family of compounds that together make up different forms of vitamin E
- Only form of Vitamin E that is used by the body†
- Enhances the biological function of CoQ10†
- Has antioxidant effects, protecting your cells from oxidative damage by neutralizing harmful molecules called free radicals†

### d-Limonene

- Extracted from the oil of citrus fruits
- Acts as a non-polar organic solvent that solubilizes CoQ10 without causing significant chemical interactions or degradation
