 - Lactose Intolerance†

† These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

The balance of bacteria in your digestive system has been linked to overall health and wellness. However, an imbalance can lead to many health concerns such as digestive issues, allergies, weight concerns, and more. Vinco's JuniorBiotic® contains a blend of probiotic strains proven for use in infants and children. Using probiotic cultures to promote health has an inherent advantage in that it is a natural approach which does not disturb the natural colonizing flora in the human body.†

Probiotics

- Live micro-organisms that you can consume through fermented foods and supplements
- Considered to be "good bacteria," these micro-organisms promote a healthy gut†
- May assist with diaper rash†
- Improve digestive and bowel functions, as well as work to prevent and treat issues such as diarrhea, constipation, gas, colic, and bloating†
- May reduce severity of allergies†
- Stimulates the immune system†
- Reduces symptoms of lactose intolerance†
- Counteracts antibiotic side effects†

What strains does Vinco's JuniorBiotic contain?

- *Lactobacillus acidophilus* (8 billion CFU)
 - *Bifidobacterium lactis* (8 billion CFU)
 - *Lactobacillus reuteri* (2 billion CFU)
- All work together to create and maintain a healthy gut. JuniorBiotic also contains 3% Fructooligosaccharides, or FOS, a prebiotic known to support the growth of healthy bacteria in the digestive tract†

Item Code: V-PBJR

Directions for Use: As a dietary supplement for infants and children. Follow dosing instructions below or as directed by a qualified healthcare professional.

- **Infants** - Make a paste using 1/2 scoop (1/4 teaspoon) of probiotic powder and water or breast milk and rub it directly in the baby's mouth once a day. If bottle-fed, add 1/2 scoop (1/4 teaspoon) to the baby's formula once a day.
- **Toddlers and Children** - Mix 1 full scoop (1/2 teaspoon) with formula, juice, milk, water, applesauce, etc; once daily.

Vinco's JuniorBiotic® contains a blend of premium cultures for human nutrition with 3% FOS. Prebiotic (FOS) is a bifidogenic factor that stimulates the growth of beneficial bifidobacteria. Consult a qualified healthcare professional to see if JuniorBiotic® is right for you.

Probiotics have been shown to be beneficial in improving digestive and bowel functions, stimulation of the immune system, reduction of lactose intolerance, reduction of antibiotic side effects, diarrhea, and may assist with diaper rash.*
